Facebook Endorsements:

Thundershirt has delivered relief for all types of symptoms: A dog clawing through dry wall. Hiding in the tub. Seizures. Destroying furniture. Jumping through plate glass windows. Hyperactive barking. Vomiting. They all happen and Thundershirt has helped to relieve them all.

Thousands of people are now using Thundershirts and are letting their social media followers know about it. Below is just a small sample from Facebook:

"Oscar during a thunderstorm. Thanks Thundershirt for giving my dog back piece of mind. This works better than the sedatives the vet gave me."

~ Jennifer Livaudais, Chattanooga, TN.

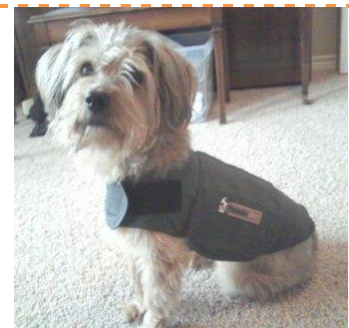

"I want to let you know how very happy Solara is with her Thundershirt! We found it at a dog show and, after chatting with the vendor, decided to give it a try! What a difference! Before knowing about the Thundershirt, poor Solara would pant and pace and want to go hide in the basement before, during and after thunderstorms. Now she will lie down and even lay her head down in the middle of thunderstorms. I am so glad to have found this for her. What a relief for both of us! Thanks for a great product. It was worth every penny! The photo is one of Solara taken only a few minutes ago, outside just before a thunderstorm (normally she would have already been asking to have the basement door opened so she could go hide out) We are forecast for severe thunderstorms, high winds and even have a tornado watch for tonight! No more hiding for her! It sure has been a real blessing with all the bad storms we have had here lately!"

~ Debra West, Montoursville, PA.

"Used this for the first time yesterday and all I can say is AMAZING!! It works! Thank you!"

~ Suzette Jeffrey

" This is My dog Cru: 8 years of tail chasing and separation anxiety finally solved thanks to thundershirt!

~ **Molly Moran, Broomfield, CO.**

"Suzie is ready for the t-storms! No more pacing and panting... and no more sitting on me in the middle of the night for comfort during a storm!"

~ **Kathy Glaes, Reading, PA.**
