

## Success Stories

### Professional Endorsements:

ThunderShirt has delivered relief for all types of symptoms: A dog clawing through dry wall. Hiding in the tub. Seizures. Destroyed furniture. Jumping through plate glass windows. Hyperactive barking. Vomiting. They all happen, and ThunderShirt has helped to relieve them all.

Thousands of veterinarians, trainers and kennels are now using ThunderShirts with their clients. Below is just a small sample:

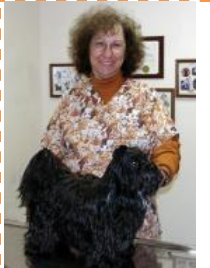

"We've been using ThunderShirt at my clinic, and the feedback from our clients is very positive. ThunderShirt is a good alternative solution to try versus medications. And it will definitely 'Do no harm'."

~ **Dr. Donald Heagren, DVM**, Cornwallis Road Animal Hospital, Durham, N.C.

"Overwhelmingly, ThunderShirts have been a success with our cases for thunderstorms and fireworks."

~ **Dr. Mark Guise, DVM**, Lockwillow Avenue Animal Hospital, Harrisburg, Pa.

"I have used ThunderShirt with my own dog and have seen a real improvement with her fear of thunderstorms and other loud noises. I am now recommending ThunderShirt to my clients."

~ **Dr. Joanne Baldwin, DVM**, Cardinal Animal Hospital, Richmond, Va.

"ThunderShirt is truly amazing! Our own 3-year-old Shih Tzu begins to shake uncontrollably when he feels a storm coming. When we used the ThunderShirt for the first time, we were amazed that in less than a minute, he stopped shaking, laid down quietly in the room where we were, and stayed there calmly through the storm. By the third time we needed to use it, I said, "Let's put on your ThunderShirt," and he came right over and lifted his head so I could put it on him. He likes it! We're telling everyone about it. What a simple solution to a major problem."

~ **Dr. Carl L. Schenholm, DVM**, Sedona, Ariz.

## Professional Endorsements (cont'd):

"In my experience as a Certified Pet Dog Trainer and dog owner, the Thundershirt can dramatically relieve a dog's anxieties associated with noise, travel, strangers, etc. The even, gentle pressure of the Thundershirt can refocus the dog to a more relaxed, calmer state. Using the Thundershirt to relieve the symptoms of noise anxiety is a good alternative to medications and its price is a terrific value."

~ **Jenn Merritt, CPDT, Blue Dog Creature Coaching**, Efland, N.C.

"As a Physical Therapist and Tellington TTouch Instructor, I frequently teach about the effectiveness of pressure wraps to reduce anxiety and fear responses in dogs. The Thundershirt is the perfect tool for calming dogs who suffer from noise phobia, anxiety, and other fear related issues. My personal experience using the Thundershirt with my own dogs has been very positive, and I happen to live in Oklahoma where storms are both frequent and dramatic! Thank you for providing this valuable product to help dogs cope with these environmental stressors."

~ **Kathy Cascade, PT, International TTouch Instructor**, Stillwater, Okla.

"I'm the owner of Sunny Acres Pet Resort, a full-service day care, boarding, training and grooming facility. Noise and other anxieties are serious problems for many of our dogs, especially during the long North Carolina thunderstorm season. Thundershirt has been a terrific solution. We see the results first-hand and our clients are thrilled too. We carry inventory in our retail area and they are selling fast!"

~ **Donna Easterlin, Owner, Sunny Acres Pet Resort**, Durham, N.C.

"We've actually had thunder every day since receiving our Thundershirt, and I definitely see a difference with my dog, Buzz. Even without any preconditioning, he was noticeably calmer wearing his Thundershirt than he usually is in a storm. And he was very comfortable wearing it. He HATED wearing the other wraps that I have tried, but when it wasn't storming this past weekend and I left his Thundershirt on him, I found him sleeping."

~ **Mychelle Blake, MSW CDBC, Editor-in-Chief, The ADPT Chronicle of the Dog**

## Customer Testimonials:

Nothing speaks louder than the powerful testimonials from our customers. The following testimonials are a very small sample of happy customers. Visit the company website, [www.thundershirt.com](http://www.thundershirt.com), to see many more Thundershirt customer testimonials.

"I purchased a Thundershirt through GRROWLS-NY, a Golden Retriever rescue. We rescued Tucker in 2002 when he was 6 years old. He's not afraid of anything except thunderstorms. He paces, pants, and tries to head down cellar (which isn't a good situation since he has severe hip dysplasia and arthritis and wouldn't be able to get back upstairs without assistance). I tried the Thundershirt during our last thunderstorm and the results are obvious by his picture. As you can see, he went to sleep! I can't thank you enough for the generous discount you gave to our rescue and especially for your wonderful product. Tucker thanks you too."

~ **MG, Syracuse, N.Y.**

"Before receiving her Thundershirt, Rage would shake, drool and actually broke through a window last year breaking her leg trying to "escape" from a thunderstorm. After putting Thundershirt on her, wonder of wonders, during the next storm she actually laid down and was chewing her Nylabone, not paying any attention at all to the storm. It was like a miracle! I strongly recommend the Thundershirt for any dog that has anxiety issues. It is wonderful!"

~ **AB, Cleveland, Ohio**

"Dear Thundershirt: First, I want to thank you for donating Thundershirts to SPCA International's Operation Baghdad Pups Program. Your generosity and interest in this program is most appreciated. Second, my puppy, Tarmiyah, received one of these Thundershirts. It works great for my little girl. She is named after the Iraqi town in which she was rescued. The loud noises from the gunfire and bombings scared her there. When she arrived at my home in the USA, her fear of loud noises came with her. Thunderstorms, fireworks, and my vacuum cleaner now frighten her. She was receptive to the Thundershirt when I fitted her with it, and within minutes, she was calm. Last night there was a severe thunderstorm in my area. When I put on her Thundershirt, she didn't try to hide behind my legs or curl up on my lap. She just laid on her part of the sofa and remained relaxed and calm. This is great idea you came up with. Thank you again!"

~ **Rebecca**

## Customer Testimonials (cont'd):

"About a year ago, a tree fell on our house during a severe thunderstorm. It landed on the room that we were in and tore a hole in the roof. The event so traumatized our Boxer, Bella, that every storm thereafter, she would become so anxiety ridden that she began to have seizures. She has even clawed through a wall in our house trying to get from one room to the next during a storm. We had to resort to heavy medications like Valium to prevent her from seizing. The issue was a tremendous burden on our lives anytime a storm was possible...our schedules had to revolve around making sure Bella would receive her medications in time.

When I found Thundershirt on the internet, I was very interested, but also very skeptical. I saw Dr. Heagren on your testimonials page...I decided to call him to see if he was indeed a real veterinarian and if so, what he had to say about Thundershirt. He very kindly took my call and patiently explained his positive experiences with Thundershirt. He suggested that trying a Thundershirt was worth a try with Bella, but he cautioned that Bella's case may be too severe. Since a storm was forecast in the next couple of days, rather than wait for a Thundershirt to arrive in the mail, we drove the 4-hour roundtrip to and from Dr. Heagren's office to purchase our Thundershirt.

To make a long story shorter, Thundershirt nearly completely eliminated Bella's symptoms! We have used it for more than four storms now and we don't even bother with the medications! What a difference this Thundershirt has made in our lives. Words can never tell you how grateful we are to you and your company."

~ **Brenda, Greenville, N.C.**

"Dr. Baldwin: I can't thank you enough for the information about Thundershirt. We never leave home without Panda's. It works wonders - the first boom and she starts shaking and I put the Thundershirt on her and she's down on the floor playing and the storm gets intense and loud and she's still playing and having a good time. Tom can't figure out how it works and it's driving him crazy."

~ **Anita, Richmond, Va.**

"Hi! I want to report that the Thundershirt worked amazingly well for my dog the very first time we tried it (Sunday). I was very pleasantly surprised because while I was hopeful, I really didn't think that it would work!"

~ **CN, Winston-Salem, N.C.**
